

SANDHIYA S

Frontend Developer & React.js Specialist

■ Salem, Tamil Nadu – 636122 | ■ santhiyasanthiya58080@gmail.com | ■ +91 7695887448

Profile Summary

Dynamic and passionate Frontend Developer specializing in React.js ecosystem with proven expertise in modern JavaScript frameworks. Combining technical excellence with creative problem-solving to build scalable, responsive web applications. Experienced in full-stack integration, API development, and performance optimization with a strong foundation in electrical engineering principles.

Technical Expertise

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Redux
Styling	Bootstrap, Tailwind CSS, Responsive Design
Backend & Database	SQL, MySQL, API Integration
Tools & Others	Git, GitHub, Java, IoT, Problem-Solving

Education

B.E. – Electrical and Electronics Engineering | Mahendra Engineering College | 2021 – 2025 | CGPA: 8.65
Higher Secondary Education | Government Higher Secondary School, Salem | 2021 | 70.33%

Professional Experience

IoT & AI Development Intern – National Small Industries Corporation (NSIC), Chennai

- Developed IoT solutions using AI concepts for real-time applications
- Implemented data monitoring and control systems
- Enhanced system reliability through algorithmic optimization

Featured Projects

EV Charging Station Monitoring System – Engineered an intelligent charging infrastructure integrating PV systems with IoT-based monitoring and data analytics.

Interactive Portfolio Website – Developed a responsive portfolio using React.js with animations, clean UI/UX, and GitHub Pages deployment.

Advanced Task Manager Application – Built a CRUD app with React.js frontend & SQL backend, featuring task management, persistence, and responsive UI.

Achievements & Activities

- Completed workshops on Android Flutter, Solar Gadgets, and E-waste Recycling
- Active participation in symposiums, coding competitions, and hackathons
- Consistent academic performance with CGPA 8.65
